

# clear

## CASE STUDY

# A Leading Automobile MNC automated their GST and e-Way Bill compliance using Clear

A dedicated team at Clear helped the client with seamless automation and made a difference!

## About the company

**Industry**  
Automobile

**Company Headquarters**  
Japan

**Product/Services**  
Vehicles

**Area served**  
India & International

## Quick Stats

Annual Turnover: **2,500 + Cr**

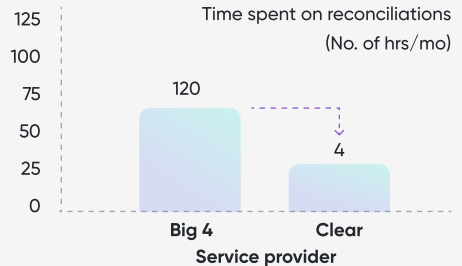

Number of GSTINs: **4**

Annual invoice count: Sales – **6 L Nos** | Purchases – **12 L Nos**

## The Impact

- The client **smoothly and accurately complies on their own** using Clear's compliance platform, with minimal human intervention
- The client reconciled **1 lakh invoices per month in just 4 hrs**, at a matching rate of **over 90%**

## Challenges Faced

- Client's existing ERP lacked data mapping support for smooth ASP implementation
- Lack of technical support on tax compliance from their existing service provider (one of the Big 4)
- Lower proportion of matched invoices between books and GSTR-2A
- No automation in data massaging leading to issues in ingestion, reconciliation and return preparation

## How Clear Helped:

**Provided technical support** for transitioning their compliance to Clear using FTP integration

**Drastic increase in matched results** using Clear's AI matching engine and customs logic built for the client

**Successful ERP integration for GST and e-way bill** leading to automation in tax compliance and ensured 100% accuracy in data reported
